P Y.

Web Dev

Full Stack Web Developer & Digital Problem Solver
Building fast, scalable, and user-centric web experiences.

Pitch Deck

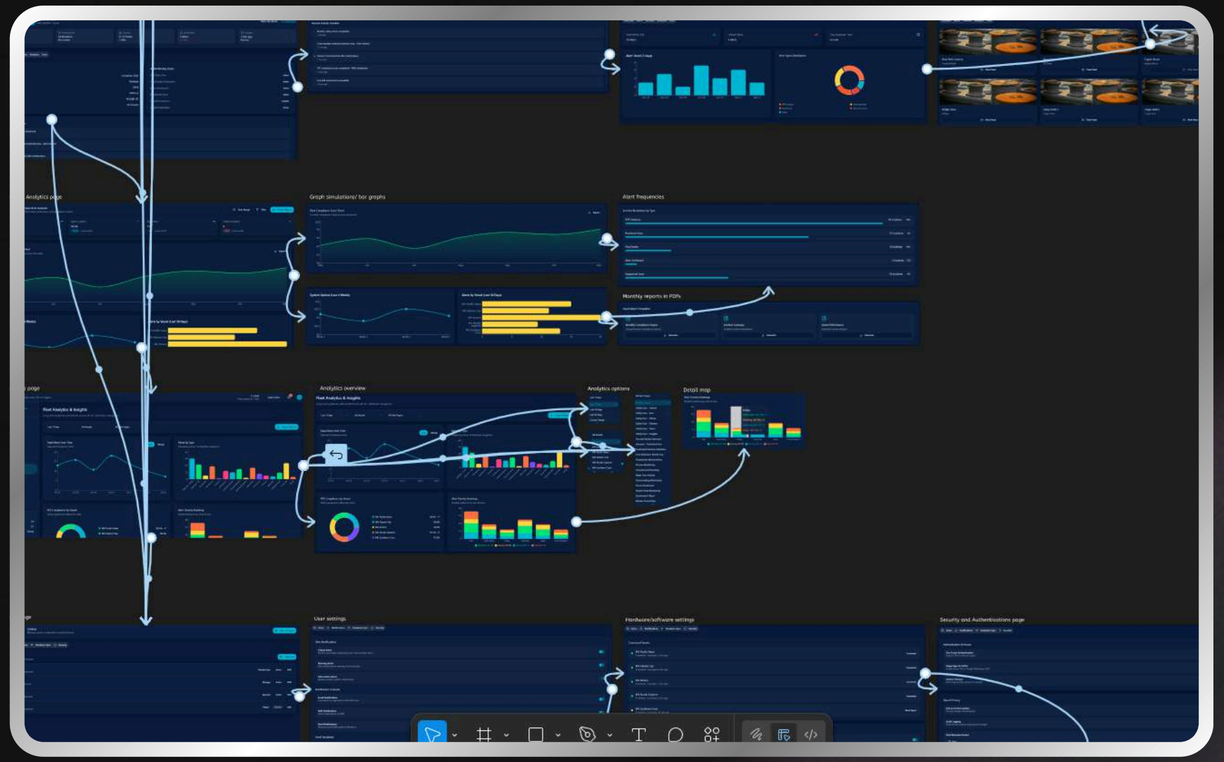
Business Presentation

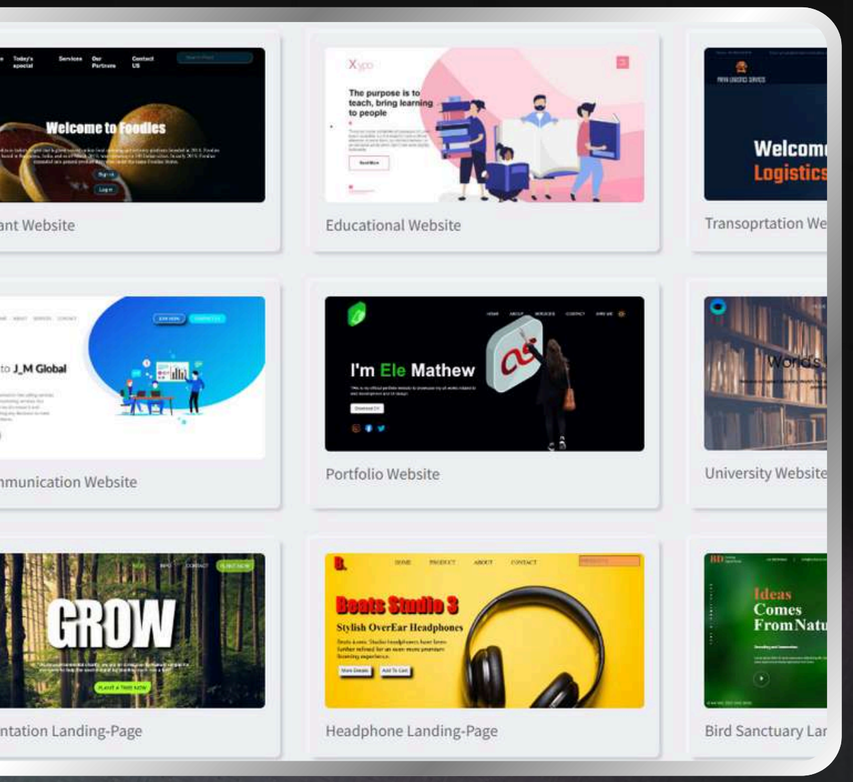
Presented by : Prince Yadav

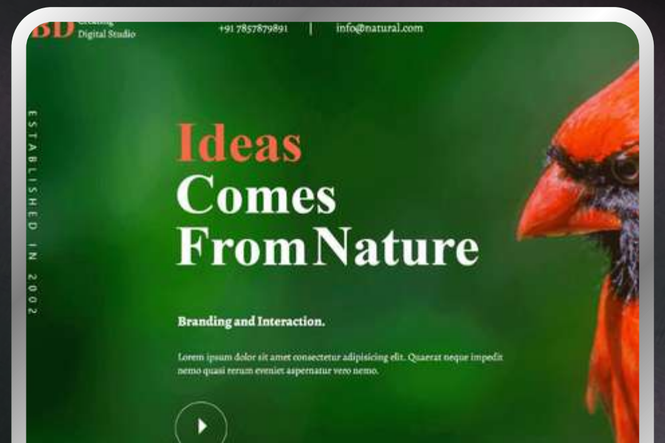
Introduction

"I don’t merely write code – I craft solutions that foster growth."

I am a Full Stack Web Developer committed to delivering high-performance digital experiences. In a landscape where even a one-second delay can lead to a 7% drop in conversions, I connect intricate backend logic with smooth, user-focused design. My goal is to guarantee that your web presence is swift, accessible, and built for the future.







Overview About Me

"Bridging the Gap Between Intelligent Engineering and Intuitive Design."

I am a Mumbai-based Full Stack Developer and Designer with over 5+ years of experience delivering high-impact digital solutions. Currently specializing in Computer Science with a focus on Artificial Intelligence and Machine Learning, I bring a unique analytical perspective to web development.

I don't just build websites; I engineer digital ecosystems that are fast, secure, and conversion optimized. My approach combines the logic of AI-driven architecture with the finesse of modern UI/UX design, ensuring that every project I touch is both technically robust and user-centric. Whether you are a startup looking for a MVP or an established business scaling your digital presence, I provide the technical expertise to turn your vision into a competitive advantage.

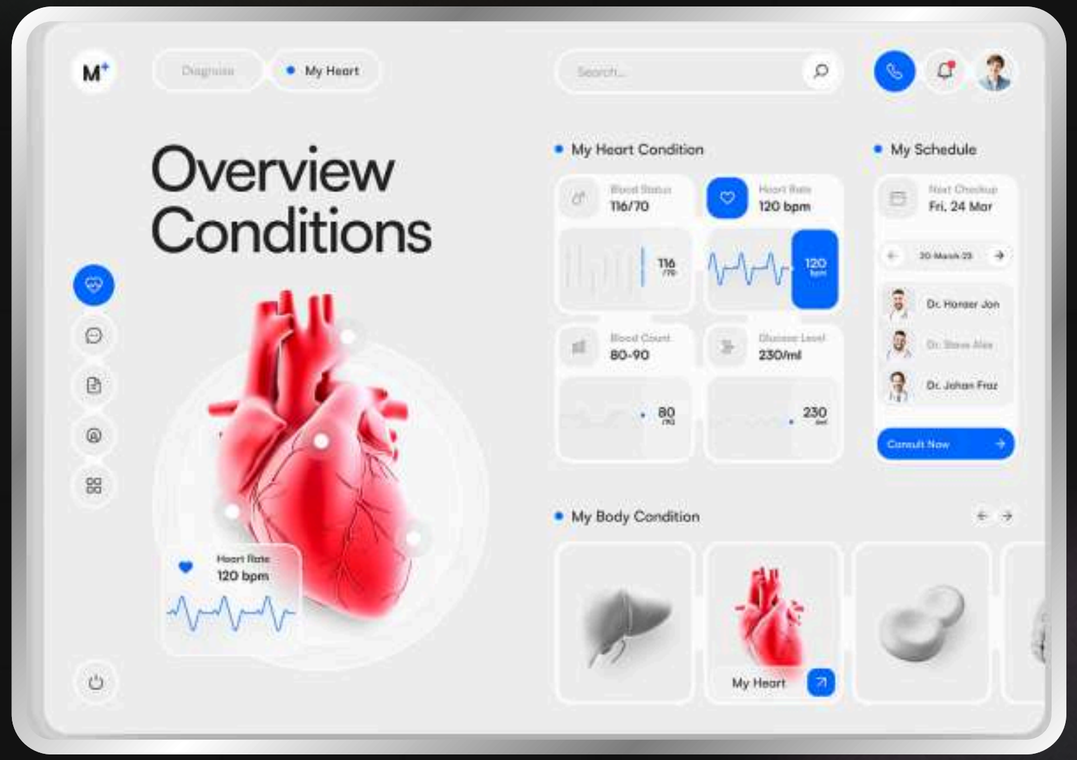
My Vision

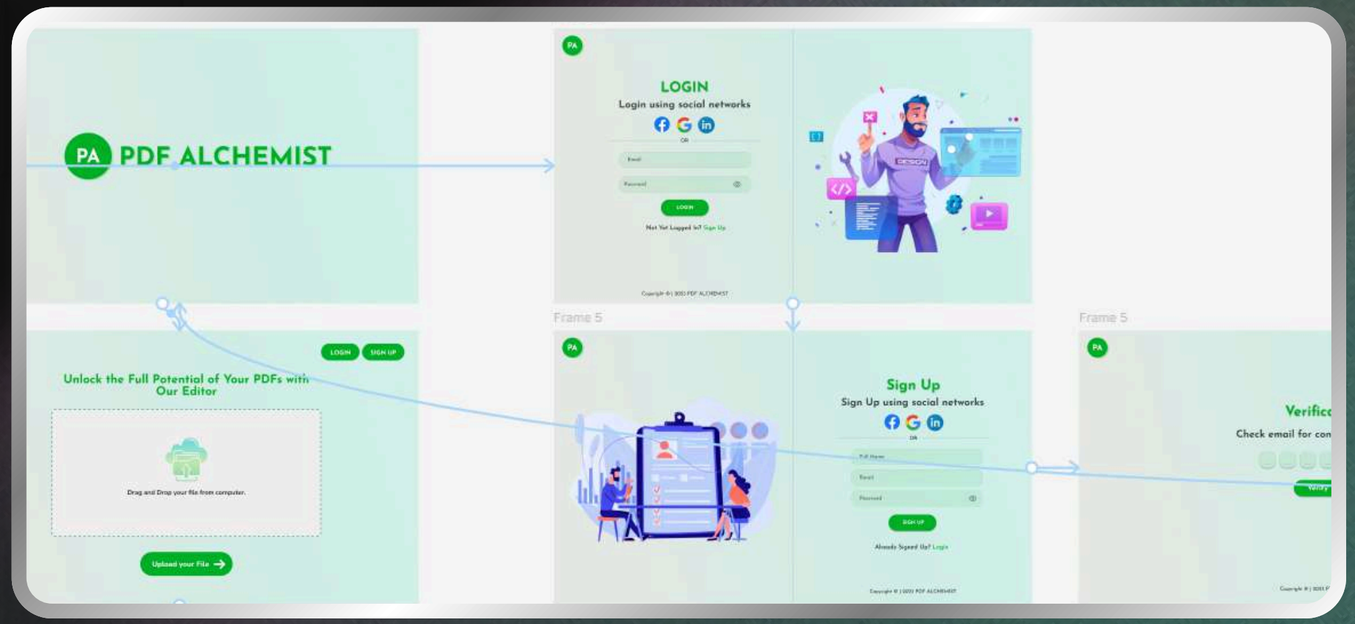
Vision 01

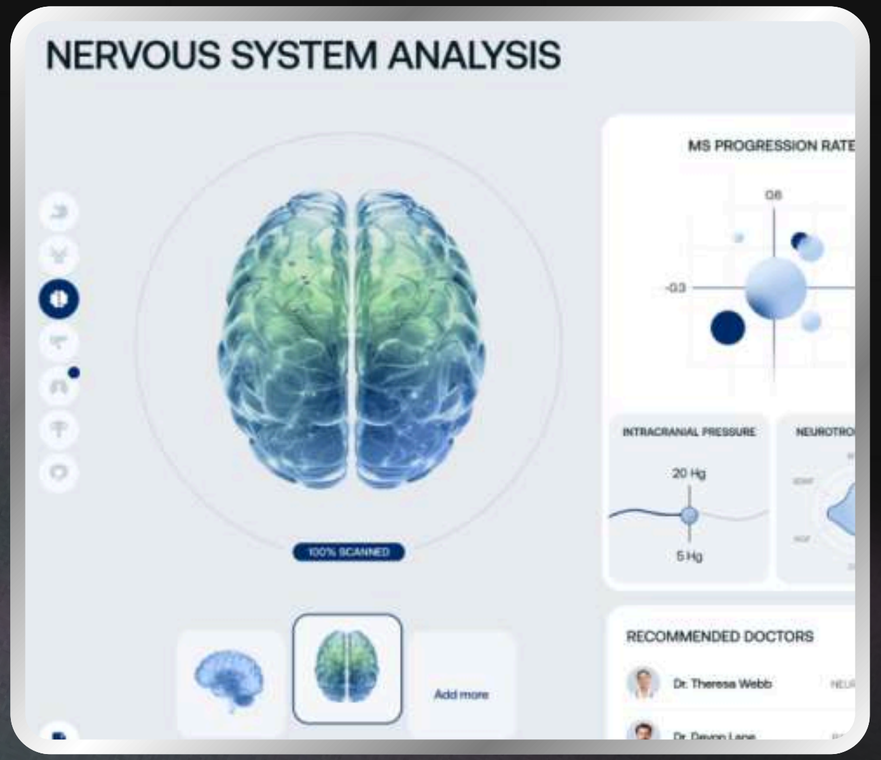
"To redefine the digital landscape by merging advanced Artificial Intelligence with human-centric web development, creating 'intelligent' platforms that don't just host content, but actively solve complex business challenges."

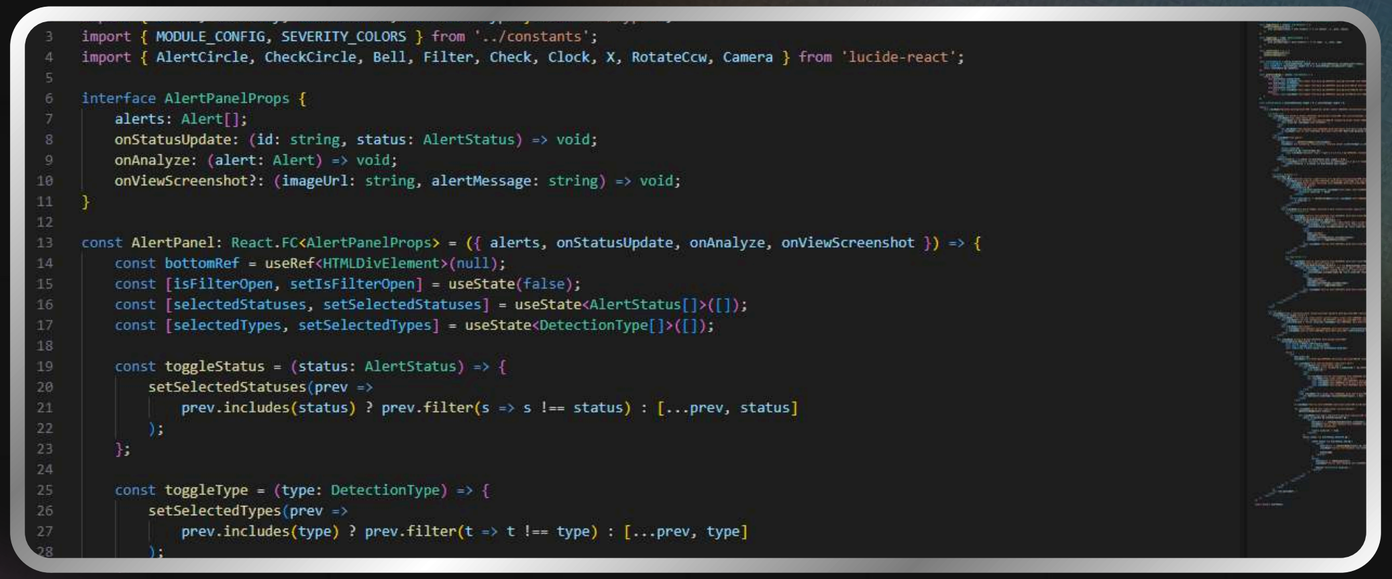
Vision 02

"To empower brands with high-performance, future-proof digital architecture, ensuring that every business from startup to enterprise has access to seamless, secure, and world-class web experiences that drive global growth."









```
import { MODULE_CONFIG, SEVERITY_COLORS } from '../constants';
import { AlertCircle, CheckCircle, Bell, Filter, Check, Clock, X, RotateCcw, Camera } from 'lucide-react';

interface AlertPanelProps {
    alerts: Alert[];
    onStatusUpdate: (id: string, status: AlertStatus) => void;
    onAnalyze: (alert: Alert) => void;
    onViewScreenshot?: (imageUrl: string, alertMessage: string) => void;
}

const AlertPanel: React.FC<AlertPanelProps> = ({ alerts, onStatusUpdate, onAnalyze, onViewScreenshot }) => {
    const bottomRef = useRef<HTMLDivElement>(null);
    const [isFilterOpen, setIsFilterOpen] = useState(false);
    const [selectedStatuses, setSelectedStatuses] = useState<AlertStatus[]>([]);
    const [selectedTypes, setSelectedTypes] = useState<DetectionType[]>([]);

    const toggleStatus = (status: AlertStatus) => {
        setSelectedStatuses(prev =>
            prev.includes(status) ? prev.filter(s => s !== status) : [...prev, status]
        );
    };

    const toggleType = (type: DetectionType) => {
        setSelectedTypes(prev =>
            prev.includes(type) ? prev.filter(t => t !== type) : [...prev, type]
        );
```

My Mission

Mission 01

"My mission is to engineer high-performance, scalable web applications by combining clean, modern code with data-driven AI insights, delivering digital products that are as robust as they are intuitive."

Mission 02

"My mission is to simplify digital transformation for my clients by providing end-to-end development and design solutions that prioritize speed, accessibility, and measurable business results."

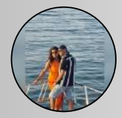
What my Clients Say

Recent Reviews -

Arun Ketu Seth
Captain

★★★★★ 5/5

From the first meeting Prince is really helpful. The professionalism seen on his work. From the first meeting he started his work be it Planning, Developing, Architecture, UI/UX, Documentations etc. is on point. Always available. Worth every penny.



Capt. Ankur Patil
Merchant Navy

★★★★★ 5/5

I am really happy to share my experience with Prince. He is really professional and hardworking. Always deliver on time, the work is really promising, always available. Puts extra efforts and delivers on time and delivers more than expected.

Services in Tiers

01 Ground Up

- *A comprehensive, end-to-end development service that takes you from a blank canvas to a fully functional digital ecosystem. I handle everything from initial brand identity and logo design to custom architecture, frontend/backend development, and final deployment.*
- *Key Value: "Zero to Launch—I build your digital foundation so you can start growing your brand from day one."*

02 Strategic Build

- *Designed for clients who have already taken the first steps but need professional execution to turn their ideas into a high-performance reality. I take your existing domain, hosting, or inspiration and transform them into a scalable, secure, and SEO-optimized web application.*
- *Key Value: "Refining Vision into Reality—I bridge the gap between your initial ideas and a professional, market-ready product."*

03 Performance Evolution

- *I audit your existing site to improve load speeds, integrate modern AI/ML features, fix legacy bugs, and refresh the UI/UX to meet 2025's design standards and accessibility requirements.*
- *"AI Integration." Many businesses in 2025 have old sites and are desperate to "add a chatbot" or "AI search" without rebuilding from scratch.*
- *Key Value: "Future-Proofing Your Growth—I breathe new life into your existing tech stack, enhancing performance and user retention.*

Production Timeline

1. Discovery & Goal Setting
2. Planning & Sitemap
3. Wireframing & UX Design
4. UI Design & Prototyping
5. Frontend Development
6. Backend Development
7. Content Integration
8. Testing & Quality Assurance
9. Deployment & Maintenance

My Process

Discovery & Strategy

Architecture & Wireframing

Rapid Development (Vibe-Driven)

Quality Assurance & Refining

Deployment & Evolution

Tech Stack

Frontend

- React
- Node Js
- TypeScript
- Tailwind CSS

Backend

- Python
- Node Js

Database

- MongoDB
- PineCone

DevOps & Cloud

- Vercel
- Docker
- Github
- Netlify
- AWS

AI & Vibe Coding

- Cursor
- Claude

Rapid Prototyping

- FastApi
- Figma
- v0.dev

Services

Core Web Development

- *Custom Web Application Development*
- *Single Page Applications (SPA)*
- *Progressive Web Apps (PWA)*
- *E-commerce Solutions*
- *CMS Integration*

AI & Intelligent Features

- *AI Chatbot Integration*
- *Intelligent Search & Recommendations*
- *Automation Workflows*
- *Data Dashboards*

Design & User Experience

- *UI/UX Design*
- *Responsive & Mobile-First Design*
- *Brand Identity Design*
- *Web Accessibility*

Technical Optimization & SEO

- *Speed & Performance Optimization*
- *Database Management*
- *API Development & Third-Party Integration*
- *Technical SEO*

Deployment & Cloud Infrastructure

- *Hosting & Server Setup*
- *Domain & DNS Management*
- *Continuous Integration (CI/CD)*
- *Database Migration*

Security & Maintenance

- *Security Audits*
- *Regular Backups*
- *Software Updates*

PY.

Pitch Deck | Experience

Premium Client Experience.

1

Contract

A clear, transparent agreement that protects both parties and defines the exact scope of work to ensure no surprises.

2

Welcome Email

A personalized greeting that sets the tone for our partnership and provides a clear roadmap of what happens next.

3

Onboarding form

A strategic questionnaire designed to capture your brand's DNA and technical requirements before we write a single line of code.

4

Request for Access

A secure and organized handover of necessary credentials (hosting, domain, or APIs) to ensure a smooth, bottleneck-free setup.

5

Kick off Call

A collaborative strategy session to align on vision, set milestones, and ensure G Meet Call, WhatsApp Call etc.

6

Clients Portal

A centralized, 24/7 dashboard where you can track project progress, access files, and view timelines in real-time.

7

Monthly Report

A data-driven summary of your site's performance, security health, and technical optimizations to show tangible ROI.

8

Thankyou Email

A formal project wrap-up expressing my gratitude and providing all final deliverables and documentation.

9

Request for Review

A brief follow-up to gather your feedback and help me refine my process while showcasing our successful collaboration.
